SUMMARY

Full Stack Intern at Stackss, Skilled in developing and maintaining responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Designed and implemented RESTful APIs and integrated third-party services to enhance application functionality. Actively contributed to code reviews, team meetings, and agile development processes, providing insights on new technologies and industry trends.

SKILLS

Languages: JavaScript, Java, C

Frontend: React.js, TailwindCss, HTML, CSS (Bootstrap), JavaFX (Scene Builder), AJAX, JSON

Backend: Node.js, Express.js

Databases: MongoDB, MySQL (XAMPP), SQL Server, Oracle SQL

Tools: Visual Studio Code, WebStorm, IntelliJ IDEA, Visual Studio, Git, Postman, XAMPP, VMware, VirtualBox, npm

Internship

Stackss - Ahmedabad, India

Dec 2023 – May 2024

Stackss is an IT services and consulting company that delivers comprehensive solutions to businesses of all sizes. Specializing in the development of innovative products, the company also drives digital transformation strategies, empowering organizations to optimize their operations and achieve technological excellence.

- Developed and maintained responsive web applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Designed and implemented RESTful APIs and integrated third-party services to enhance application functionality.
- Participated in code reviews, team meetings, and agile development processes, contributing to discussions on new technologies and industry trends.

PROJECTS

Real Estate Web Application | [GitHub](#)

Technologies: JavaScript • React • Node.js • Express • MongoDB • HTML/CSS

- Developed a full-stack real estate web application using the MERN stack (MongoDB, Express, React, Node.js) to enable property listings, user authentication, and seamless data management.
- Implemented a responsive frontend with React for an intuitive user experience and a robust backend with Node.js and Express for efficient API handling and MongoDB for persistent storage of property and user data.

Zomato Clone Web Application | [GitHub](#)

Technologies: HTML • CSS • JavaScript

- Created a front-end web application mimicking Zomato's core functionality, including restaurant listings and search features, using vanilla JavaScript, HTML, and CSS.
- Designed a responsive and interactive user interface with CSS for styling and JavaScript for dynamic content rendering, ensuring an engaging user experience without a backend framework.

Coffee Rider Web Application | [GitHub](#)

Technologies: HTML • CSS • JavaScript

- Designed a front-end web application for a coffee shop, showcasing an interactive menu, customer reviews, and a table booking feature, using vanilla JavaScript, HTML, and CSS.
- Implemented a responsive layout with CSS and added JavaScript-driven functionality for seamless navigation and table reservation, enhancing user engagement.

EDUCATION

- Humber Polytechnic, Information Technology Solutions, Canada, 2026;
- Silver Oak University, Bachelor's in Computer Applications, India, 2024.
